Bob,
I have the reverse information available for WIU's benefit: I can speak to the Axia population and its impact on WIU's default rate.

FY 2005:
WIU's default rate was 11.4%. **Redacted by HELP Committee**
Redacted by HELP Committee **With Axia removed, WIU's default rate for FY 2005**
would have been 3.4% **Redacted by HELP Committee**

FY 2006:
WIU's default rate was 27.4%. **Redacted by HELP Committee**
Redacted by HELP Committee **With Axia removed, WIU's default rate for**
FY 2006 would have been 11.7% **Redacted by HELP Committee**

See below for Bachelor CDR info for last couple of years.

We are within 30 minutes of having the updated Cost to Taxpayers' table for the Annual Academic Report which Dr. Sperling wants to see by tomorrow morning.

The only missing pieces of data we need which we have been asking Bob for and apparently he is out of the office are the following:

1. Financial Aid Default rate for UOPX bachelors students **Redacted by HELP Committee**
Redacted by HELP Committee
2. Financial Aid Default rate for UOPX associate (Axia) students. See above.

Please let me know who can get me this information in Bob's absence.

Thanks in advance for your prompt reply.
