I would prefer it not go up that much, but I think this is out of our control. You name it, we'll sell it.

Subject: Tuition Increase

Redacted by HELP Committee

We need to submit to CS ^{Redacted by HELP Committee} for approval our proposed tuition increase.

Last time our increase was 2.8% and for the 6 prior quarters the increase ranged between 2.4% and 3.1%

My recommendation would be for another \$10- increase (same as last time) for a \$363 per credit hour tuition rate. This equates to a 2.75% increase.

Please let me know if this works for you guys.

Redacted by HELP C

Also... .do we need any other school level approvals or CS approvals of this increase?

Please advise.

Thanks so much!
