COMMENTS : 10/25/06- BBB response: they notified consumer of our response and consumer was not satisfied; we have made a good faith effort in attempting to resolve issue therefore BBB is closing the case at this time

10/23/06- requested update from Campus if BBB has responded back 9/21/06- **Redacted**

Redacted } 9/18/06- on Sept. 13th BBB sent response and stated they have received further correspondence from consumer about complaint, the BBB requested to respond online again 9/5/06- Campus submits response on-line, I have link on file 9/1/06- Campus preparing response for BBB 8/24/06- student claims False Advertisement. The school did not have the supplies needed for the class, the dates assigned for the class were not accurate. The classrooms were changed several times. Teachers changed during the lessons, No assistance finding a job, they denied me from using their fax machine to fax my resume...., and much more. I do not think it is fair for me to pay a 10 thousand dollar financial aid if the school did not comply with what I signed up for. I followed my end of the contract, Attended every class did all the work and paid 50 a month through out the 9 months of class, **Redacted** feels the same she also went to school with me
