- The only major concerns were the 5% increase and the applicability of a price increase to nursing in [Redacted by HELP Committee] .....all 3 thought that a 3% increase to all programs, except nursing in [Redacted by HELP Committee], would not cause any significant problem. Increases above 3 %, especially in Iowa where the ITG tuition disbursement schedule and award reduction modifications are to be implemented for 2010, would cause a disruption in student packaging expectations that would lead students to reduce their class loads, or as a worst case scenario, drop from our programs to attend a cheaper program whereat they could reduce out-of pocket tuition expenses.
