## Title X in Iowa

Senate Health, Education, Labor, and Pensions Committee, Democratic Staff

In Iowa in 2015, there were **47** Title X–funded sites operated by different types of agencies. Collectively these Title X–funded sites delivered contraceptive care to **35,970** women in Iowa. Title X–supported Planned Parenthood health centers served **54 percent** of these women.

## IMPACT OF POTENTIAL THREATS TO TITLE X IN IOWA

If Planned Parenthood were excluded from Title X, all other types of Title X-funded sites in lowa would have to increase their contraceptive client caseloads by **117 percent** to serve the women who currently obtain contraceptive care from Planned Parenthood health centers, as illustrated below.

If all Title X funds were redirected only to federally qualified health center sites that serve at least 10 contraceptive clients a year in Iowa, those sites would have to **increase their contraceptive client caseloads by a factor of five or more** to maintain the current reach of Title X.

For more state-specific detail on the impact of:

- excluding Planned Parenthood from Title X, see this June 2017 analysis (esp. Table 2).
- redirecting all Title X funds to FQHC sites, see this May 2017 analysis (esp. Table 5).
