# IMPACT OF POTENTIAL THREATS TO TITLE X IN TENNESSEE

If Planned Parenthood were excluded from Title X, all other types of Title X-funded sites in Tennessee would have to increase their contraceptive client caseloads by **five percent** to serve the women who currently obtain contraceptive care from Planned Parenthood health centers, as illustrated below.

If all Title X funds were redirected only to federally qualified health center sites that serve at least 10 contraceptive clients a year in Tennessee, those sites would have to **increase their contraceptive client caseloads by a factor of five or more** to maintain the current reach of Title X.
