

United States Senate

WASHINGTON, DC 20510

June 12, 2024

Senate Democrats have embraced a Summer of Scare Tactics—a partisan campaign of false fearmongering intended to mislead and confuse the American people. In vitro fertilization is legal and available in every state across our nation. We strongly support continued nationwide access to IVF, which has allowed millions of aspiring parents to start and grow their families.

Sincerely,

Kathi Boyd Britt
